Our Story:

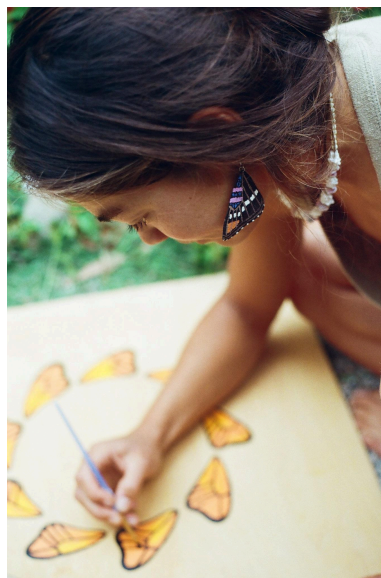

I started selling stickers in 2016 as a way to fill the gap for unique, authentic, and handdrawn souvenirs. My experience traveling & living in the West, I see the same computer made graphics over and over again & thus my goal has been to create thoughtful and tasteful designs that are not only beautiful and genuine but also serve as continual reminders of people's experiences in the outdoors.

All my designs start with pencil and watercolor, then I photograph the image & edit it digitally for optimal print quality. I have spent years developing & mastering this technique that results in an artisanal yet affordable product.

I currently offer stickers in two sizes- standard & mini, as well as magnets. All designs are editable to have custom text for your town. Furthermore I am available for fully custom designs if there is a particular sight or monument you would like documented.

Thank you for being here along for the journey & I hope you enjoy looking though my current line sheet!
